RDP Brake Shoe Kits

- Cost effective popular friction for a wide range of applications
- Engineered to meet the performance demands required for Australian road conditions
- Excellent stopping power
- Fade and recovery rates provide outstanding reliability and durability
- Glass fibre based medium friction, non asbestos material
- All kits contain 2 shoes and hardware for 1 wheel end
- Available in MG1A and MG2A friction materials

Friction	Part Number	Application	Size
MG1A	RDPBSK4515F3	Fruehauf / SAF / TMC	16.5" x 7"

For Most Applications*

As battery technology experts, Atomic specialise in the sourcing, storage, distribution and installation of automotive, motorcycle, heavy vehicles, equipment and marine batteries, alternators and starter motors.

Atomic work with the world's biggest battery manufacturers to source batteries for customers and test them in our in-house Testing and Quality Assurance Facility to ensure they meet OEM specifications.

With a strong national supply chain and global procurement capability, Atomic are owned and backed by the strength and resources of the Australian motoring clubs. Motoring club partners include: RACQ, RACV, NRMA, RACT, RAC, RACT

- Maintenance free technology
- Industry leading warranty offering
- Fully sealed containers
- Longer shelf life
- Magic eye charge indicator
- Expanded grid technology
- Fibre reinforced plates
- AGM and EFB technology
- 2-Year Warranty*

RDP's Heavy Duty Tensioners are guaranteed to be engineered and manufactured to the strictest design specification. The heavy-duty cast aluminum body and pulley arms translate into extra strength and durability. RDP's Heavy Duty Tensioner features a patented "flat spring" design that's engineered to handle the higher torque and power pulses exerted by today's diesel engines.

RDP Clutch Kits

The RDP HDD (Heavy Duty Damper) Disc assembly is the strongest disc assembly available in the clutch market.

- Spline Saver design used to increase the strength and circumference of the input shaft
- Snap Ring on the Spline Saver allows for easy and even installation of the clutch discs
- The 6-Paddle / 6-Spring design incorporates USA made springs that are longer & stronger than any other clutch disc spring
- The HDD design is used in RDP 2050, 2250 & 3000ft.lbs.torque rated clutches

Heavy Duty Charge Air Cooler Hoses

Charge Air Cooler (CAC) Hoses are manufactured by Dayco to meet or exceed OEM specifications. Commonly used in Turbo, Supercharger or Intercooler connections or virtually any air to air application where high temperatures or extreme working conditions exist. This product works well for offset piping connections or where extreme vibration or lateral movement exists offering a superior connection between engine mounted charge air system components in Truck and Bus induction systems, performance vehicles, agricultural machinery, off-highway vehicles and aerospace applications.

- 4 Ply woven Aramid Silicone Hose (Oxide Red)
- Aramid temperature range -50° to +230°C
- 4 Ply Silicone Polyester reinforced configuration (Blue)
- Silicone temperature range -50° to +177°C
- Stainless Steel retention rings
- Excellent Ozone and UV resistance.
- Convuluted design retains flexibility in hostile engine environments.
